

Streamlined Microsoft license management.

ITsavvy helps clients streamline the process of managing their **Microsoft** licenses, renewals and software upgrades. ITsavvy's self-service Cloud Solution Provider (CSP) portal makes it fast and easy to add or remove Microsoft licenses or services such as Azure, Office 365, Dynamics and Exchange. Invoices are consolidated into one monthly invoice which makes the billing process more efficient. ITsavvy's CSP portal is a no cost service and clients can increase or decrease their licenses at any time. **Our clients also receive ITsavvy's CSP expertise, migration assistance and in-house expert tech support.**

Superior expertise, service, & support

ITsavvy is a Tier 1 Gold Direct Microsoft Cloud Solution Provider (CSP), which is the highest Microsoft CSP partner level. ITsavvy's partnership and extensive knowledge of Microsoft saves you time and improves your experience.

- **Save time:** Quickly and seamlessly transition to the cloud with ITsavvy's certified cloud experts. CSP clients also enjoy excellent client service and faster response times.
- **Escalation:** As a direct Microsoft partner, ITsavvy can escalate client problems directly to Microsoft's help desk to resolve problems faster.
- **CSP partnership:** This allows ITsavvy to resell all Microsoft services to enterprise, government, education, and SMB clients.

Accelerate time to value

Receive immediate business value when you transition to the cloud with ITsavvy. Our team helps you design a lean, cost-effective Microsoft infrastructure.

- **Self-service portal:** You can save time with the CSP self-service license management portal, which allows you to increase or decrease the number of licenses instantly.
- **Cost management:** See immediate cost savings by paying only for the licenses and services you need.
- **Consolidated billing:** CSP clients enjoy the convenience of ITsavvy's automated billing, which consolidates all costs into one monthly invoice to reduce billing errors.
- **Tier-1 support:** Understand your entire cloud landscape with ITsavvy's range of cloud capabilities. When you need help, our team is available to provide in-house Tier 1 support to resolve issues quickly.

ITsavvy's Microsoft CSP capabilities

Manage your software licenses, renewals, and software upgrades more efficiently with ITsavvy. In addition to superior service and faster response times, ITsavvy will also notify you about new Microsoft releases. Capabilities include:

Microsoft cloud solution licensing and fulfillment

We procure Microsoft licenses or services such as Azure, Office 365, Dynamics, and Exchange. We manage all licenses on the same billing cycle, which streamlines invoices and eliminates billing errors.

Security and data protection services

Be proactive in your infrastructure, security policies, data backup, and identity management. ITsavvy helps you choose Microsoft products that will stop threats before they affect your business.

Migration services

Clients can tap into our certified team's cloud expertise and Microsoft knowledge to make the most of their move to the cloud. We offer custom pricing packages for your cloud service needs.

Self-service portal

Enjoy the cost savings of only paying for the licenses you need. Increase or decrease your number of licenses instantly in the CSP self-service portal.

End-user enablement and help desk support

We move fast to get your end users operational. We are proud to offer in-house Tier 1 support through our savvyGuard Help Desk at no cost to clients.

US government and education workloads

Microsoft's suite of tools and ITsavvy's CSP expertise is perfect for any sector, including the US government and education.
