

## Reduce costs & manage your assets.

ITsavvy implements **Lifecycle Management** best practices to help our clients manage their IT assets between deployment and decommission. We make sure support contracts stay up to date to eliminate the risk of IT disruption. Best of all, ITsavvy's Lifecycle Management is a no-cost solution. **We never charge clients for our time or expertise.**

### Reduce time to value.

Renewal management is just the beginning. ITsavvy's lifecycle management tool reduces manual work and gives clients time back in their day. The tool provides a basic view of all renewals coming up so you always know where your contracts stand. ITsavvy also uploads all asset information into our online portal, so you can view contract details at any time. Rely on our lifecycle management team for continued support throughout the lifespan of the contract: **we're here to help from start to finish.**

### Save time and money.

ITsavvy's Lifecycle Management can help you:

- Spend your time on what matters most.
- Follow visible timelines for replacing your assets.
- Enjoy greater peace of mind knowing that your contracts won't lapse.
- Streamline contracts for easier tracking.
- Access support if equipment goes down.

## The ITsavvy Lifecycle Management Solution

Our lifecycle management team is dedicated to helping you consolidate, co-term, and track renewals. Don't worry about lapsed contracts. ITsavvy's proactive process ensures we start the renewal process 90 days in advance of expiration. Enjoy fast, outstanding service every time you work with our team. We're here to provide flexible, accommodating service when you need it most. **The core strengths of ITsavvy's lifecycle management solution are our people, process, and technology.**

### People

Our dedicated team and single point of contact actively manage your maintenance contracts. Our experts are committed to providing you with:

- Renewal and maintenance expertise
- Strong vendor partnerships
- Dependable resources

### Process

We exercise industry leading best practices to maximize the life of your assets while minimizing risk or support loss. Our best practices provide clients with:

- Proactive engagements
- Co-termed and consolidated contracts
- Third-party maintenance strategies for end-of-life gear

### Technology

We provide a comprehensive asset management dashboard in a custom-built portal. ITsavvy's Lifecycle Management technology includes:

- A single-pane renewal dashboard
- A data rich asset management tool
- User-friendly functionality
